

MILWAUKEE RADIO AMATEURS' CLUB INC.

MINUTES:

September 5, 1968

Milwaukee School of Engineering; 1020 N. Broadway; Room 1*B

The meeting was called to order at 8:00PM by President Travis Baird.

The minutes of the June and August meetings were read and approved.

There was no treasurer's report due to the absence of the Treasurer.

The club was advised of the need for a Director to fill the vacancy resulting from the death of Jack Doyle. The possibility of an election was discussed but no action was taken. The name of Walter Fitting, W9OI, was suggested as a candidate.

It was reported that some radio gear of deceased members was still for sale. Included was a Model 19 Teletype of W9GPI.

Various band reports were given.

ARRL Bullitens #183 and #184 were read by W9VQD.

A very interesting report was given by Bob Stuckert, WA9SYD, of his Summer School experience in Electrical Engineering Research at Ohio University. He described a Signal Corps project which hopes to be able to locate aircraft within ten feet at any altitude and any distance. His specialty was developing circuitry for receiving weak 60 KHz signals and comparing their phase and timing. He also promised to present a future program describing a system of playing a complete baseball game, on a computer, in about 100 seconds.

A visitor, David DeFebo, was introduced and was given application instructions.

Upon motion of W9WVL, the meeting was adjourned at 9:19 PM.

Walt Glish, Secretary
